

PRESIDENT

MICHEL HAUDRY

"I think that the quality of a Society largely depends on the significance that is given to the destiny of our Youth. Our E2C (SCS) Network contributes to opening such a space that allows young people with sad and difficult circumstances to grow up and accomplish themselves as adults. Professionally I teach Economics and Politics.

In 2011, I have been one of the founder members of E2C Savoie, as deputy mayor of Chambéry and president of the "Mission locale Jeunes".

I am also involved in neighborhood associations. Together with the Inhabitants we daily try to find solutions in "underprivileged neighborhoods". Solutions for young people are there a priority, for them, for their families, for the neighborhood.

Our European Network has a vocation to open eyes and minds in our Societies. We know how cruel History can be. And from this experience we can understand how worth it could become in our times. Nobody to us is superfluous or insignificant. As largely we will be able to share this conviction on our Territories, gathering for that wide professional and personal experiences, in so far the Youth will be welcomed by adult regards. For the safety and the well-being of all of us."
